The International Society for Cardiovascular Disease Prevention (ISCVDP) has awarded the 2018 Cardiovascular Congress in Paris and Normandy, France, as the ISCVDP Congress of the Year.

The ISCVDP has been recognized for its commitment to improving cardiovascular health worldwide through education, research, and collaboration with other organizations.

The ISCVDP Congress of the Year is awarded annually to recognize the excellence of a cardiovascular congress held in the previous year in terms of scientific content, educational value, and overall impact on cardiovascular health.

The 2018 Congress of the Year was the 27th International Congress on Cardiovascular Disease Prevention, which took place in Paris, France, from July 22 to July 29, 2018. The congress was organized by the International Society for Cardiovascular Disease Prevention (ISCVDP) and the French Society for Cardiology (SFCCT). It featured a wide range of scientific sessions, panel discussions, and workshops focused on the latest research and advances in cardiovascular disease prevention.

The ISCVDP Congress of the Year is a prestigious award that recognizes the contributions of organizations and individuals who are dedicated to improving cardiovascular health and preventing heart disease.

The ISCVDP looks forward to continuing its work in promoting cardiovascular health and prevention around the world.
